DETAILED ACTION

Allowable Subject Matter

Claims 1-3, 6, and 7 are allowed.

The following is an examiner's statement of reasons for allowance: Independent Claim 1 establishes supplying an instruction delay time voluntarily adjustable within a range of anticipated delay time and determining the number of compression bits based on said instruction delay time and said storage capacity. This limitation is neither disclosed nor suggested in the prior art or record. Yazawa (Japanese Patent JP404339500A) discloses a method for generating surround-sound data. However, there is no mention of supplying an instruction delay time or determining the number of compression bits based on said instruction delay time and said storage capacity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
